

Micah Mobile Ministries

and

August 2019

We shared with you last month about the commencement of **Micah Mobile Ministries** and the years of visiting homes with a small, voluntary team, and offering a free Bible.

When in 2010 the three areas first designated were complete; the workers in the ministry said **'What now?'** It was quickly realised that working the way we

had we would take **181 years** to complete Cornwall!!!!!!!!!!!!!!

The Lord began to highlight the importance of training others and the first A5, training manual was completed. The work was put together from Keith and Pauline's years of experience, Peppy Cobbold's production skills (in Oxfordshire) and pictorial design by Leticia Rebello (in Canada). We were really stretching the **Mobile** aspect of the work.

The ministry began to realise that however good this training manual was it would need the workers to come along and teach the content, and it was therefore decided to seek to produce a training manual which would 'stand-alone'.

Having discussed the content and agreed upon that it was realised that time would be needed to write the manual and have it ready for publishing and printing. November 2013 saw KnP travelling to North Yorkshire to stay with their good friends Ivan and Heather Knapton whilst the writing took place, and they returned in January 2014 with the completed digital copy.

Then began the search to find a publisher and printer so that the idea might become a book copy ready for use. A few ideas were explored and finally it was decided that if the Lord wanted a printed copy of excellence it was necessary to ask Him for the finance. As time was coming towards the end of January they asked the Lord that if what they were hearing was of Him, He would provide them with £1,000 to start begin things moving by the end of January, which was less than a week away.

They received a phone call from a gentleman they knew who asked if he could visit them the next day and see the new van the Lord had provided them with. They readily said yes. During the course of the visit the man asked what were the ministry needs at this present time, and they shared about the book; at which

point the man said here's **£5,000** to get it done.

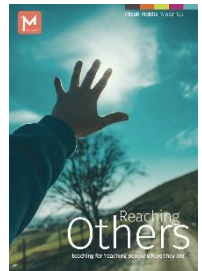

So **Acts 1:8 Evangelism Training manual** was born.

By May that year the printed copies were available and out being used to train, churches, groups of Christians, individuals in England and around the world. It was taken to the DR Congo in 2014 and India in 2015, but many copies have been downloaded from Kindle over the 5 years since its publication.

Now in 2019 we are thrilled to announce that this manual has been joined by a further publication, **Reaching Others**, published by ARM media in February of this year.

Both of these manuals are available to help train people to reach out to those around them who don't, as yet, know Jesus.

These are not manuals to train evangelists, but they are manuals to help all of us to feel prepared and confident to be witnesses for Jesus to those we know and love.

These manuals are available from **Micah Mobile Ministries** directly at any time.
