

# MicahOnTheMove

**July 2020**

## **New plans and proposals**

Keith and Pauline decided that it would be very useful to be able to set up the lights, camera stands and recording chair in a fixed place in the property, but as it is a cottage there was not room to do all that in the lounge and leave it in situ. With the amazing time given to us all through the lockdown period they made the decision to redecorate their second bedroom, and turn it into a multipurpose room.

They appreciate your prayer support in keeping the internet work continuing, and expanding and would therefore like to share with you some pictures of the completed work on the multi-purpose room.

All decoration was done by a well-known decorator who is readily on hand, that is readily on hand to Pauline, but not available for hiring by other clients!

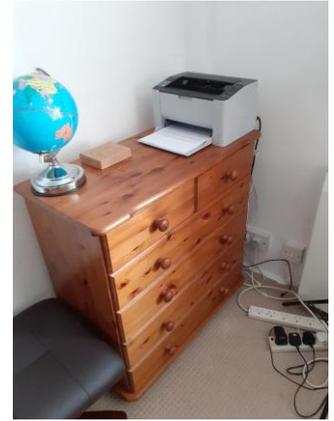

### **The multi-purpose, second bedroom, study, office, studio and prayer room.**

The photo has been taken from the window looking through the room to the doorway and top of the stairs. This shows the room as is when not in use for any of the above functions.

**The second bedroom**

**The office**

**The study and prayer room**

**With student in situ**

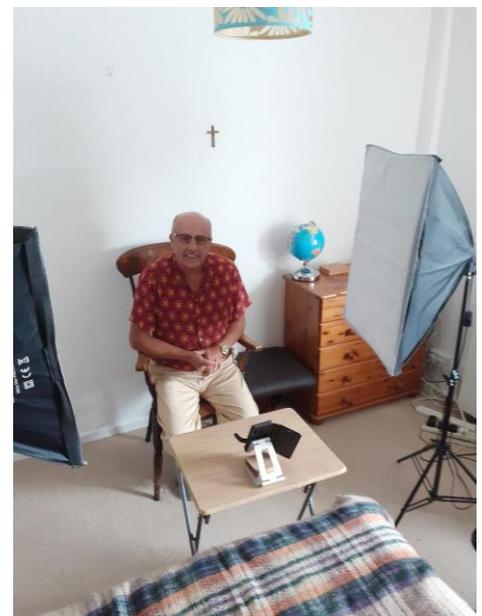

## **And the STUDIO**

Keith and Pauline appreciate your continued prayers for the work of broadcasting out on Facebook, Periscope, Twitter, You Tube and Instagram.

They have been amazed how well these broadcasts have been received by most people, and ask you to pray specifically for safety in using the internet.

Pauline has had both her Facebook accounts hacked, one of them twice, in the last month. Passwords and profile pictures have now been changed, and things seemed to have settled down at present.

**Please pray as they plan for the next season that they may hear clearly the plans of the Lord for what is produced and when and where.**

**There are so many possibilities, and they want to be doing what Jesus wants not just good ideas.**
