This revised version of the Act 1:8 Evangelism Training Manual is an excellent tool to use in training others/or as study reference for yourself. It's written in a simple format and easy to pick up and get going! Having completed the course, the study booklet captures many years of the ministries experience, helping you overcome the many challenges you may face spiritually and practically! Highly recommended for those looking to reach their community with the gospel. Just add HS fire then BOOM

Reaching Others with Good News

7 May 2019

This book gave principles that made me rethink and change my behaviour so that others may know about Jesus

Equally exciting

The report we received from a church leader who had been using the book in their small study group.

'We are doing 'Reaching Others' in our house group. Everyone, without exception, is getting a lot from it.'

Each group can use it in the way they enjoy most; another comment we received was, **'We started the first session and it caused so much discussion that we will still be working through Session 1 the next time we meet.'**
